For comprehensive health care information, start here.

ProQuest Nursing & Allied Health Source provides users with reliable health care information covering nursing, allied health, alternative and complementary medicine, and much more. This versatile database is designed to meet the needs of researchers at health care facilities as well as nursing and allied health programs at academic institutions. ProQuest Nursing & Allied Health Source provides more than 550 full-text publications, numerous evidence-based resources from more than 70 health fields including:

- Cytology
- Consumer Health
- Hematology
- Histology
- Nuclear Medicine
- Nursing
- Nutrition
- Oncology
- Orthopedics
- Pediatric Care
- Pharmacology
- Public Health
- Radiology
- Traumatology

In addition, ProQuest Nursing & Allied Health Source embraces the idea of rigorous scholarship by including over 11,000 full-text dissertations in nursing and related fields from top universities.

Search quickly. Find efficiently.

Thirty index fields give users several ways to pursue their research. Fields include article title, author, author affiliation, publication, volume, issue, date, abstract, subject, article type, image caption, language, and many others. Enhanced searching capabilities make it easy for you and your users to find the information you want:

- The “More like this” option displays related information on the user’s topic
- Thanks to ProQuest® Smart Search, the top of the results page shows suggested topics that help focus the search
- Citations are formatted in the style of the user’s choice
- Users can browse by subject, publication title, person, company, and geographic location
- Common-sense, intuitive date-range options help users quickly select the exact range they want
- When users finish their research engagement, the “My Research” feature records their marked articles, previous searches, and the publications they visited, in one easy-to-find location

Remarkable titles. From the finest sources in the world.

The need for current and comprehensive information is especially critical in matters of health and wellness. ProQuest Nursing & Allied Health Source features a variety of renowned publications—some addressing broad content areas while others focus on very specific areas of study. Among the titles are:

- Association of Operating Room Nurses Journal
- Applied Radiology
- Canadian Journal of Respiratory Therapy
- Clinical Laboratory Science
- Dental Assistant
- Health Services
- Journal of Allied Health
- Journal of Athletic Training
- Journal of Gerontological Nursing
- Journal of Nursing Scholarship
- Journal of Psychosocial Nursing & Menta
- Journal of Rehabilitation
- Journal of Speech, Language, and Hearing Research
- Oncology Nursing Forum
- Physical Therapy
- The Canadian Journal of Occupational Therapy

ProQuest Nursing & Allied Health Source also includes the following exciting new additions:

Study Paths
We help create the perfect method for finding topics and recommended reading. Our intuitive curriculum topic tree connects users to useful information. Also, our editorially-selected articles act as ready-made packages for users writing essays on specific topics. We have selected the most relevant results for a wide range of topics.

Joanna Briggs Institute Evidence-Based Nursing Content
We are pleased to announce the addition of evidence-based nursing information from The Joanna Briggs Institute (JBI). These include systematic reviews, evidence summaries, best practice information sheets, and beyond. The JBI’s evidence-based approach opens a new world of education resources, with critical appraisal and meta-analysis that is highly-respected and unquestioned in the field.

Access to JBI Connect
In addition to Joanna Briggs Institute’s resources, ProQuest Nursing & Allied Health Source customers receive complimentary access to their website, JBI Connect. This provides this additional information:

- RAPid – a widely respected tool that teaches students to critically appraise evidence for good nursing practices and offers them the possibility of publishing in the RAPid Library
- SUMARI – a modular software package designed to help nursing academics conduct systematic health reviews using evidence-based methods
