# Status

## Network status

### No Internet access

Your device is connected and can access other devices on your local network, but may not be able to reach the Internet. If you have a limited data plan, you can make this network a metered connection or change other properties.

 Troubleshoot

[Change connection properties](#)

## Change your network settings

-  **Change adapter options**  
View network adapters and change connection settings.
-  **Sharing options**  
For the networks you connect to, decide what you want to share.

Sign in Cancel

A screenshot of a proxy sign-in dialog box. The dialog has a title 'Sign in' and a message: 'The proxy http://168.120.16.231:8080 requires a username and password. Your connection to this site is not private'. Below the message are two input fields: 'Username' containing 'g5619409' and 'Password' containing a series of dots. A red box highlights both input fields, with a red arrow pointing from the top instruction box to the 'Username' field. To the right of the input fields is a small box containing the number '13'. At the bottom of the dialog are two buttons: 'Sign in' (blue) and 'Cancel' (grey). A red box highlights the 'Sign in' button, with a red arrow pointing from the bottom instruction box to it. Below the 'Sign in' button is a small box containing the number '14'.
